

# CDI subject index, 2003

## A

- ACIR  
*See: Childhood immunisation coverage*
- Acute flaccid paralysis  
*See: Poliomyelitis*
- Adverse effects following immunisation, surveillance: Australia, 2000–2002; 307–323
- AIDS  
*See: HIV and AIDS*
- Annual report  
*See individual surveillance programs*
- Anthrax  
 overseas briefs; 431  
 surveillance reports; 65  
*See also: Communicable diseases surveillance tables*
- Antibiotic  
 resistance  
   gonococcal; 190–193  
   meningococcal; 201  
   overseas brief; 577  
   surveillance report; 72  
 susceptibility  
   ceftriaxone; 192  
   quinolone; 192–193  
   penicillin; 191–192  
   tetracycline resistant *Neisseria gonorrhoeae*; 193  
   tuberculosis; 176, 462
- Antimicrobial resistance surveillance  
 strategy, Australia; 435–448  
 editorial; 433–434
- Arbovirus infection  
 surveillance report; 53–61  
 and Malaria Website; 434  
*See also: Barmah Forest virus, Kunjin virus infection, Japanese encephalitis, malaria, Murray Valley encephalitis, Ross River virus*
- ASPREN  
*See: Australian Sentinel Practice Research Network*
- Australian bat lyssavirus  
*See: Rabies*
- Australian Childhood Immunisation Register  
*See: Childhood immunisation coverage*
- Australian encephalitis  
*See: Sentinel Chicken Surveillance Programme*
- Australian Gonococcal Surveillance Programme  
 annual report, 2002; 189–195  
 quarterly surveillance report; 147, 420–421, 566–567  
*See also: Gonococcal infection*
- Australian Meningococcal Surveillance Programme  
 annual report; 196–208
- Australian Mycobacterium Reference Laboratory Network  
 annual report, 2002; 459–465
- Australian National Creutzfeldt–Jakob Disease Registry  
*See: Creutzfeldt–Jakob disease*
- Australian National Polio Reference Laboratory  
 bi–annual report July to December; 352–356  
 surveillance report; 50–51  
*See also: Poliomyelitis*
- Australian Paediatric Surveillance Unit  
 bi–annual report 1 January to 30 June 2003; 524–525  
 surveillance data in *CDI* explanation; 128–129  
 surveillance report; 298–299
- Australian Rotavirus Surveillance Program  
 annual report 2002–03; 492–495
- Australian Sentinel Practice Research Network;  
 123–124  
 surveillance  
   data in *CDI* explanation; 125–126  
   report; 146, 298, 419, 565
- Australian Technical Advisory Group on Immunisation; 277–279
- Australia's notifiable diseases status annual report  
*See: National Notifiable Diseases Surveillance System*
- Avian influenza  
*See: influenza*

**B**

- Barmah Forest virus  
 surveillance report; 53–56, 407–408, 554  
*See also: Communicable diseases surveillance tables*
- BCG  
*See: Tuberculosis*
- Bettering the Evaluation and Care of Health; 391–393
- Bioterrorism  
 possible response; 73
- Bird mites infestation in Wollongong; 259–261  
 letter to the Editor; 394–395
- Bloodborne disease  
 surveillance report; 25–31, 551  
*See also: Communicable diseases surveillance tables, hepatitis B, hepatitis C, HIV/AIDS*
- Botulism  
 surveillance report; 31  
*See also: Communicable diseases surveillance tables*
- Bovine spongiform encephalopathy  
*See: Creutzfeldt–Jakob disease*
- Brucellosis  
 surveillance report; 61  
*See also: Communicable diseases surveillance tables*

**C**

- Campylobacter  
*See: Campylobacteriosis*
- Campylobacteriosis  
 outbreak of *Campylobacter jejuni* infection among conference delegates; 380–383  
 overseas briefs; 158  
 surveillance report; 32, 405  
*See also: Communicable diseases surveillance tables*
- Chlamydia*  
*See: Chlamydial infection*

- Chlamydial infection  
 and gonorrhoea and syphilis incidence in the Kimberley; 370–372  
 and *Listeria* and *Yersinia*, study of foodborne pathogens in faeces of slaughter-age cattle and sheep in Australia; 249–257  
 assessment of the Roche Amplicor *Chlamydia trachomatis/Neisseria gonorrhoeae* multiplex PCR assay in routine diagnostic use; 373–379  
 surveillance report; 39–41, 286  
*See also: Communicable diseases surveillance tables*
- Chickenpox  
*See: Varicella*
- Childhood immunisation coverage  
 estimating immunisation coverage: is the 'third dose assumption' still valid?; 357–361  
 surveillance of adverse effects following immunisation: Australia, 2000–2002; 307–323  
 surveillance reports; 52, 150–152, 301–303, 423–425, 569–573
- Cholera  
 overseas briefs; 428–429, 573  
 surveillance report; 38  
*See also: Communicable diseases surveillance tables*
- Communicable Diseases Intelligence*  
 editorial; 161–162, 433  
 erratum; 132, 284, 395–402  
 instructions for authors; 130–132  
 letter to the editor  
     human infestation with bird mites in Wollongong; 394–395  
     varicella surveillance: simpler than you think; 100–101  
 readership survey; 280–283  
 surveillance data in *CDI* explanation; 125–132
- Communicable diseases surveillance  
 annual report  
     *See: National Notifiable Diseases Surveillance System*  
     *See also: individual surveillance schemes*  
 report; 133–154, 285–305, 403–427, 551–564  
 tables; 16–24, 137–142, 289–294, 410–415, 556–561

Creutzfeldt-Jakob disease  
 overseas briefs; 578  
 surveillance report; 73  
 variant Creutzfeldt-Jakob disease  
 overseas briefs; 157, 578

Cryptosporidiosis  
 outbreak associated with an animal nursery at  
 a regional fair; 244–249  
 surveillance report; 32–33  
*See also: Communicable diseases surveillance  
 tables*

## D

Dengue  
 in north Queensland, 2002; 384–389  
 surveillance report; 58–59, 287, 407, 554  
 overseas briefs; 155, 430, 573  
*See also: Communicable diseases surveillance  
 tables*

Diphtheria  
 surveillance report; 46  
*See also: Communicable diseases surveillance  
 tables*

Donovanosis  
 surveillance report; 41–42  
*See also: Communicable diseases surveillance  
 tables*

## E

Encephalitis  
 Australian  
*See: Sentinel Chicken Surveillance  
 Programme*  
*See also: Japanese encephalitis, Kunjin  
 virus, Murray Valley encephalitis*

Enteroviruses  
*See: poliomyelitis*

*Escherichia coli*  
*See: Communicable diseases surveillance  
 tables*

## F

Flavivirus  
*See: Sentinel Chicken Surveillance  
 Programme*  
*See also: dengue, Kunjin virus, Japanese  
 encephalitis, Murray Valley encephalitis*

Foodborne disease  
*See: OzFoodNet*  
*See also: Salmonellosis*

## G

Gastroenteritis  
*See: Gastrointestinal diseases*

Gastrointestinal diseases  
 surveillance report; 31–39, 133–134, 285–286,  
 551–552  
*See also: Communicable diseases surveillance  
 tables, botulism, campylobacteriosis,  
 cryptosporidiosis, haemolytic uraemic  
 syndrome, hepatitis A, listeriosis, rotavirus,  
 salmonellosis, shiga-like-toxin and verotoxin  
 producing E. coli infections, shigellosis, typhoid*

Gonococcal infection  
 and chlamydia and syphilis incidence in the  
 Kimberley; 370–372  
 assessment of the Roche Amplicor *Chlamydia  
 trachomatis/Neisseria gonorrhoeae* multiplex  
 PCR assay in routine diagnostic use; 373–379  
 Australian Gonococcal Surveillance  
 Programme  
 annual report, 2002; 189–195  
 quarterly surveillance report; 147, 420–421,  
 566–567  
 surveillance data in *CDI* explanation; 128  
 surveillance report; 42–44, 286  
 WHO Western Pacific Region  
 annual report, 2002; 488–491  
*See also: Communicable diseases surveillance  
 tables*

Gonorrhoea  
*See: Gonococcal infection*

## H

- Haemolytic uraemic syndrome  
surveillance report; 39  
*See also: Communicable diseases surveillance tables*
- Haemophilus influenzae* type b  
elimination: evaluation of prevention in Australia, 1 July 1993 to 30 June 2000; 324–341  
surveillance report; 46–47  
*See also: Communicable diseases surveillance tables*
- Haemorrhagic fever  
*See: viral haemorrhagic fever*
- Hepatitis A  
overseas briefs; 158  
surveillance report; 33–34, 134, 405–406, 552  
*See also: Communicable diseases surveillance tables*
- Hepatitis B  
surveillance report; 25–27, 551  
*See also: Communicable diseases surveillance tables*
- Hepatitis C  
overseas briefs; 158  
surveillance report; 27–29  
*See also: Communicable diseases surveillance tables*
- Hepatitis D  
surveillance report; 31  
*See: Communicable diseases surveillance tables*
- Hepatitis E  
surveillance report; 34  
*See also: Communicable diseases surveillance tables*
- HIV and AIDS  
surveillance data in *CDI* explanation; 126  
surveillance report; 148–149, 299–300, 421–422, 567–568
- Human pituitary hormone  
*See: Creutzfeldt–Jakob disease*

## I

- Immunisation  
childhood immunisation coverage  
*See: Childhood immunisation coverage*  
National Committee; 548–550
- Influenza  
ASPREN data  
*See: Australian Sentinel Practitioner Research Network*
- avian  
overseas briefs; 431, 574–575
- laboratory–confirmed  
surveillance reports; 47, 406–407, 553–554
- LabVISE data  
*See: Virology and Serology Laboratory Reporting Scheme*
- National Influenza Surveillance Scheme  
annual report; 162–172  
surveillance data in *CDI* explanation; 128  
surveillance for neuraminidase inhibitor resistance in human influenza viruses from Australia; 542–547  
vaccine, uptake among Aboriginal and Torres Strait Island adults in north Queensland, 2002; 102–104  
vaccination  
Australian recommendation for 2003 season; 78  
Australian recommendation for 2004 season; 523  
*See also: Communicable diseases surveillance tables*
- Invasive meningococcal infections  
*See: Meningococcal infections*
- Invasive pneumococcal disease  
*See: Pneumococcal disease*

## J

- Japanese encephalitis  
surveillance report; 58  
*See also: Communicable diseases surveillance tables*

**K**

Kunjin virus infection  
 surveillance report; 56–58, 287  
*See also: Sentinel Chicken Surveillance Programme*  
*See also: Communicable diseases surveillance tables*

**L**

Legionellosis  
 surveillance report; 65–67  
*See also: Communicable diseases surveillance tables*

Leprosy  
 surveillance report; 67

Leptospirosis  
 surveillance report; 62  
*See also: Communicable diseases surveillance tables*

Listeriosis  
 and *Campylobacter* and *Yersinia*, study of foodborne pathogens in faeces of slaughter-age cattle and sheep in Australia; 249–257  
 surveillance report; 34–35, 286  
*See also: Communicable diseases surveillance tables*

Lyssavirus  
*See: Rabies*

**M**

Malaria  
 and Arbovirus Website; 434  
 overseas briefs; 158–159  
 surveillance report; 59–61, 134  
*See also: Communicable diseases surveillance tables*

Measles  
 overseas briefs; 576–577  
 surveillance report; 48, 406, 552–553  
*See also: Communicable diseases surveillance tables*

Melioidosis  
 in northern Australia, 2001–02; 272–277

Meningococcal infections  
 Australian Meningococcal Surveillance Programme annual report, 2002; 196–208  
 Editorial: National Meningococcal C Vaccination Program; 161–162  
 overseas briefs; 155  
 surveillance of invasive disease in Queensland, 2002; 342–351  
 surveillance report; 67–69, 408, 555  
 using national guidelines to manage group C outbreak in a Brisbane boarding school; 520–523  
*See also: Communicable diseases surveillance tables*

Monkeypox  
 overseas briefs; 429–430

Mosquitos  
 rainfall and vector mosquito numbers as risk factors for mosquito-borne disease in Central Australia; 110–116  
 variability of larval identification characters of exotic *Aedes albopictus*, Darwin; 105–109

Mumps  
 and rubella surveillance in Victoria, 1993 to 2000; 94–99  
 surveillance report; 49  
*See also: Communicable diseases surveillance tables*

Murray Valley encephalitis virus  
 surveillance report; 56–58  
*See also: Sentinel Chicken Surveillance Programme*  
*See also: Communicable diseases surveillance tables*

Mycobacterium  
*See: Tuberculosis*

**N**

National Arbovirus Advisory Committee  
*See: Arbovirus*

National Centre in HIV Epidemiology and Clinical Research  
*See: HIV and AIDS*

National Enteric Pathogens Surveillance System  
 surveillance data in *CDI* explanation; 129  
 surveillance reports; 153–154, 303–305, 426–427, 571–572

National Immunisation Committee; 548–550

National Influenza Surveillance Scheme

*See: Influenza*

National Mycobacterial Surveillance System

*See: Tuberculosis*

National Notifiable Diseases Surveillance System

annual report, 2001; 1–78

surveillance data in *CDI* explanation; 125

tables; 16–24, 137–142, 289–294, 410–415, 556–561

*See also: Communicable diseases surveillance*

National Rotavirus Reference Centre

*See: Australian Rotavirus Surveillance Program*

*Neisseria gonorrhoea*

*See: Gonococcal infection*

*Neisseria meningitidis*

*See: Meningococcal infection*

Notifiable diseases

*See: Communicable diseases surveillance*

*See also: National Notifiable Diseases Surveillance Scheme*

## O

Opportunistic infections in immunosuppressed patients in the tropical Top End of the Northern Territory, prevention; 526–532

Ornithosis

surveillance report; 63

*See: Communicable diseases surveillance tables*

Outbreak

*Campylobacter jejuni*; 380–383

dengue; 384–389

meningococcal; 520–523

*Salmonella* Potsdam; 508–512

*Salmonella* Typhimurium phage type 4; 513–514

*Salmonella* Typhimurium phage type 135a; 257–259

*Salmonella* Typhimurium phage type 99; 389–390

*Salmonella* Typhimurium phage type U290; 514–516

Shiga toxin-producing *Escherichia coli* in South Australia; 517–519

Overseas briefs; 155–159, 428–431, 573–578

OzFoodNet

annual report, 2002; 209–243

quarterly surveillance report; 89–93, 504–507

surveillance report; 403–406

## P

Pertussis

surveillance report; 49, 286–287

*See also: Communicable diseases surveillance tables*

*Photorhabdus asymbiotica* in cases of human infection; 540–541

Plague

*See: Communicable diseases surveillance tables*

*Plasmodium* spp.

*See: Malaria*

Pneumococcal disease

annual report, 2002; 466–477

laboratory annual report, 2001 to 2002; 478–487

assessment of implementation of conjugate vaccination program for Aboriginal and Torres Strait infants in north Queensland; 262–266

current status and future challenges, in Australia; 79–88

invasive disease among children in Victoria; 362–366

surveillance report; 50

*See: Communicable diseases surveillance tables*

Poliomyelitis

Australian National Polio Reference Laboratory annual report, 2002; 352–356

surveillance report; 50–51

*See also: Communicable diseases surveillance tables*

## Q

Q fever

prevalence of markers of exposure in the Kimberley, Western Australia; 267–271

surveillance report; 64, 287–288

*See also: Communicable diseases surveillance tables*

Quarantinable diseases

surveillance report; 38–39

*See also: Cholera, plague, yellow fever*

**R**

Rabies

- Australian bat lyssavirus
  - surveillance report; 64
- human lyssavirus death
  - overseas briefs; 157
- surveillance report; 38
- See also: Communicable diseases surveillance tables*

Respiratory syncytial virus; 117–122

Ross River virus

- surveillance report; 53–56, 135, 407–408
- See also: Communicable diseases surveillance tables*

Rotavirus

- annual report 2002-03; 492–495
- surveillance of viral pathogens in Australia; 496–503

Rubella

- and mumps surveillance in Victoria, 1993 to 2000; 94–99
- congenital, resurgence in Australia; 533–536
- surveillance report; 51
- congenital, in Australia; can we explain two recent cases; 537–540
- See also: Communicable diseases surveillance tables*

**S**

Salmonellosis

- National Enteric Pathogens Surveillance System
  - See: National Enteric Pathogens Surveillance System*
- outbreak of *Salmonella* Potsdam associated with salad dressing at a restaurant; 508–512
- outbreak of *Salmonella* Typhimurium phage type 4 linked to cold set cheese cake; 513–514
- outbreak of *Salmonella* Typhimurium phage type 135a in a child care centre; 257–259
- outbreak of *Salmonella* Typhimurium phage type 99 linked to contaminated bakery piping bags; 389–390
- outbreak of *Salmonella* Typhimurium phage type U290 linked to a bakery; 514–516
- surveillance report; 35–37, 133–134, 285, 404, 551

*See also: Communicable diseases surveillance tables*

*See also: OzFoodNet*

SARS

*See: severe acute respiratory syndrome*

Sentinel Chicken Surveillance Programme

- annual report July 2002 to June 2003; 367–369
- surveillance data in *CDI* explanation; 127

Serology

Kunjin virus

*See: Kunjin virus; Sentinel Chicken Surveillance Programme*

Murray Valley encephalitis virus

*See: Murray Valley encephalitis; Sentinel Chicken Surveillance Programme*

Sexually transmitted infections

- surveillance report; 39–45, 286
- See also: Chlamydial infection; communicable diseases surveillance tables, donovanosis, gonococcal infection, syphilis*

Severe acute respiratory syndrome

- overseas briefs; 428, 575–576

Shiga-like toxin and verotoxin producing *E. coli* infections

- investigation of two clusters in South Australia; 517–519
- surveillance report; 38
- See also: Communicable diseases surveillance tables*

Shigellosis

- surveillance report; 37
- See also: Communicable diseases surveillance tables*

SLTEC

*See: Shiga-like toxin and verotoxin producing E. coli infections*

Smallpox

- overseas briefs; 431

*Staphylococcus aureus*

- overseas briefs; 156–157

Surveillance

*See: Communicable Diseases Surveillance*

Surveillance reports

- See individual surveillance reports*
- See also: Communicable diseases surveillance*

Syphilis

- and *Chlamydia* and *Gonorrhoea* incidence in the Kimberley; 370–372
- surveillance report; 44–45
- See also: *Communicable diseases surveillance tables*

**T**

Tetanus

- surveillance report; 52
- See also: *Communicable diseases surveillance tables*

Transmissible spongiform encephalopathies

- See: *Creutzfeldt–Jakob disease*

Tuberculosis

- annual report laboratory, 2001; 173–180
- annual report laboratory, 2002; 459–465
- annual report notifications 2002; 449–458
- national atypical mycobacteria survey, 2000; 180–189
- overseas briefs; 156
- surveillance report; 69, 135
- See also: *Communicable diseases surveillance tables*

Typhoid

- overseas briefs; 429
- surveillance report; 38
- See also: *Communicable diseases surveillance tables*

**V**

Vaccination

- See: *Childhood Immunisation coverage*

Vaccine preventable diseases

- surveillance report; 46–52, 286–287, 406–407, 552–554
- See also: *Diphtheria*, *Haemophilus influenzae type b*, *influenza*, *pneumococcal disease*, *measles*, *mumps*, *pertussis*, *poliomyelitis*, *rubella*, *tetanus*

Variant Creutzfeldt–Jakob disease

- See: *Creutzfeldt–Jakob disease*

Varicella

- surveillance: simpler than you think. Letter to the Editor; 100–101

Vectorborne diseases

- surveillance report; 53–61, 135, 287–288, 407–408, 554
- See also: *Arbovirus infection*, *Barmah Forest virus infection*, *dengue*, *Japanese encephalitis*, *Kunjin virus infection*, *malaria*, *Murray Valley encephalitis*, *Ross River virus infection*

Viral haemorrhagic fever

- See: *Communicable diseases surveillance tables*

Viral pathogens surveillance

- respiratory syncytial virus; 117–122
- rotavirus; 496–503

Virology and Serology Laboratory Reporting Scheme

- data tables; 143–145, 295–297, 416–418, 562–564
- surveillance data in *CDI* explanation; 128
- surveillance report; 69–72, 136

VTEC

- See: *Shiga-like-toxin and verotoxin producing E. coli infections*

**W**

West Nile fever

- overseas briefs; 155

World Health Organization

- gonococcal West Pacific Region;
- See: *gonococcal infection*

**Y**

Yellow fever

- See: *Communicable diseases surveillance tables*

Yersiniosis

- and *Campylobacter* and *Listeria*, study of foodborne pathogens in faeces of slaughter-age cattle and sheep in Australia; 249–257

**Z**

Zoonoses

- surveillance report; 61–65, 554
- See also: *Anthrax*, *brucellosis*, *leptospirosis*, *Q fever*

Zoster

- See: *Varicella*
